DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, figures 1-3, claims 1-5, and 8-15 in the reply filed on September 20, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 6, 7, and 16-20 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 20, 2006.
3. Please note that claims 6-7 have been withdrawn from consideration by the examiner as being drawn to the non-elected species figure 4.

Drawings

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "24", "26", and "28". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be

Art Unit: 3732

notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-5 and 9-15 rejected under 35 U.S.C. 102(e) as being anticipated by Slater (US 6,623,448).

Slater discloses a catheter articulation segment including all the elements set forth in the claims.

7. Claims 1-5, 8-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Pike et al (US 5,695,506).

Pike discloses a catheter articulation segment including all the elements set forth in the claims.

8. Claims 1-5 and 9-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Samson et al (US 5,449,343).

Samson discloses a catheter articulation segment and its method of making including all the elements and steps set forth in the claims.
